Quippo Telecom Infrastructure is an ISO 9001:2008 certified by CMAI INFOCOM National Telecom Award 2009 the "Largest Independent News Programme". The award presentation is jointly conducted by the Minister of Public Communication & IT, the current and outgoing Newsholders, INMIB – Quippo Group and Area Market Group President – Quippo at INM – QTR.

This award recognition provides great encouragement and pride to the entire group for their contribution in building a value-oriented Telecom Network and in promoting an effective means of communication.

### Yahoo, Microsoft deal

Microsoft and Yahoo have announced a partnership in Internet search and advertising to take on the industry powerhouse Google.

From the past, Microsoft will provide the underlying search technology to Yahoo people that also the deal will give a full on Microsoft's search engine, which is heavily criticized and accused they do not do well.
