

Quipo – Energy Rental hogs limelight as Associate Sponsor at Energy Expo-2007 December 7-9, 2007, University Grounds, Ahmedabad

Energy Expo-2007 has been the first ever Tradeshow that Quipo Energy Rental participated in a big way since it commenced its operation in May-2006. Quipo Energy Rental was an **associate sponsor** for this event, **held in December 2007 at University Grounds, Ahmedabad.**

Energy Expo organized by CII is western India's largest regional energy exposition held biennially in Ahmedabad. It was 3rd in the series and was a mega event with more than 160 companies participated from all across the nation & abroad.

Along with Energy Rental offering and its capabilities, Quipo also showcased Ready-to- Use Natural Gas based containerized Power Pack - 1300, which hogged a lot of limelight during the show due to its strategic display location. More than 1500 curious visitors visited Quipo stall (C-24) display, to understand its unique business concept. A few of them have shown a keen interest in the solution. This participation will help in signing up of a few contracts through the enquiries generated.

Quipo-Energy Rental with 17.5 MWe user base under its belt, has been recognized as a formidable force by all engine suppliers in the Gas space and many have expressed keen interest to get associated with Quipo including – Rolls Royce, Waukesha Dresser and CAT besides the existing partners. Specially designed carry bags were distributed in this event and turned out to be a major hit amongst the visitors & exhibitors.

CII had also organized a single day technical conference as **“CII's India Energy Conclave 2007”** on the day of the Inauguration. Along with Mr. Sudhir M Trehan, Mr. Nitin Shukla, Mr. Banmali Agrawala, Mr. Premangshu Sanyal & Mr. Manish Agarwal, our **CEO Mr. Hemant Pincha participated in “CEO's Interactive Roundtable - India Energy Inc. - Crossing The Rubicon” moderated by CNBC TV18 on 7 December 2007. He shared his views on critical areas of concern impacting the growth of Power Industry, thereby, highlighting the ideal destinations for Investment, along with the emerging alternative- the renewable energy.**

This thought provoking interactive roundtable session aimed at bringing together the eminent thought leaders / leading players in the Indian Energy Industry on a common platform. The panel discussion also included the following issues such as Globalization, Policy and Vision for future in terms of rural electrification, efficient transmission & distribution and the climate change in a Global Environment.
